

Planting Design Service

The addition of beautiful gardens to an outdoor space provides you with more living space, a calming retreat and the freedom to express your creativity and personality. The “Planting Design” concept was created for customers who want to do a planting project themselves but require advice on how to complete the project and help in selecting plant material.

Plant material can also help cool a space, provide clean air and privacy; it can add texture, colour and scent. Let us help you create your perfect urban oasis.

Consultation - \$65 for one hour – By appointment

You can discuss with a designer what you would like to have done, view samples of plant material and review your photos. A rough, hand drawn sketch will be provided

For the consultation you need to provide the following items before meeting with the designer:

- Dimensions of the area
- Photos
- Existing plant material you would like to use.
- Planting style – formal, cottage, English, etc.
- Soil conditions – dry/moist, clay/sand, etc. & light conditions – sun/shade, etc.

Sketch

A sketch will be created during the first 30min of the consultation; for the remainder of the hour we will allow the customer to view the suggested plant material and ornaments with the designer in the display gardens and on the sales benches.

Refund of consultation fee – applicable within 30 days of the consultation

\$65 rebate with the purchase of \$500 + worth of plant material (before tax)

\$35 rebate with the purchase of \$300-499 worth of plant material (before tax)

*Delivery available for customers located within 10 km. of the Design Centre for an additional \$25.00.
Exceptions may be made for large purchases.*
